

Diffusive Spreading in Nature, Technology and Society

Bringing together scientists from disciplines as different as archaeology, ecology, epidemics, ethnology, linguistics and sociology with biologists, chemists, physicists, mathematicians and engineers, *Diffusion Fundamentals VI* is scheduled to highlight the astonishingly similar patterns of spreading phenomena in Humanities, Natural Sciences and Engineering.

Confirmed Speakers

| | | |
|-------------------------------|------------------------------|------------------------------|
| Dirk Brockmann (Berlin) | Shlomo Havlin (Ramat Gan) | Hernán Makse (New York) |
